Writing Assignment 3

LACC 201: Writing Assignment 3

For Writing Assignment 3, pick one of the following and write **one paragraph** that adheres to the basic structure Harrop discusses in *The Simple Math of Writing Well*: (1) Describe what it takes to perform a specific job or task, OR (2) Describe how to prepare for and confront an everyday challenge. Be sure you include a clear *topic sentence* and specific, effective *evidence*. Before you write, carefully consider your *purpose* and **audience** (see below for more information about audience).

All papers for this course must adhere to APA formatting; for specifics, reference the APA Sample Essay, APA Template, and APA links at the top of our course site. See the Syllabus for details about Late Papers, Revisions, and Turnitin.

In completing this assignment, please consider the following:

Purpose: To accurately explain how something happens or how it is done. As you ponder your purpose, consider your audience as well: Who needs to hear this? Why? What can you share that your audience will find meaningful or helpful?

Audience: Your choice, although must be more than one person and appropriate to your purpose. Be sure to attach a one-paragraph audience description to your draft, using proper APA format for an Appendix (see Audience Description handout).

Due Date: By midnight on Sunday. Final papers must be in APA format, edited carefully, and below a 10% Turnitin score.
